Our squadron plaques have never been produced with great accuracy or finish, so I have now had the squadron badges made through a Graphic Artist and plaque business. The resulting finish is stunning and I can now offer to our members a Landscape or a Portrait plaque version. I have also made small 'lapel pins' from the aircraft profiles that is on the ties and lanyards. So select the Portrait or Landscape style of your wish. Select the aircraft lapel pin of the type or types you flew in during your 75 Squadron time, and select the words you would like engraved on the small title plate to be fixed onto the plaque.
